Notes:

1. These are domestic athlete nominations only. It should be noted that there are a number of United States based athletes who are eligible for selection and who have achieved the qualifying performances but who have not yet committed themselves to potential selection for this meeting. Others have done so, but in all cases we await the results of their qualifying and (potentially) finals performances at NCAA level before making final nominations.
2. While there are several athletes in the men's 1500 metres both in New Zealand and abroad who have achieved the qualifying standard, we have nominated only Hamish Carson for that event as a locally-based athlete who has met the criteria (and is currently fastest of the qualifiers), whose season has finished and therefore will have no more qualifying opportunities, and who competed in and won the New Zealand championship race. One more athlete will certainly be nominated for that event by June 6. It remains only to determine who that will be. The selectors wish it to be known to the athletes that there will be a further nomination or nominations.
